Film for High-speed Liquid Filling, supporting Hot Fill

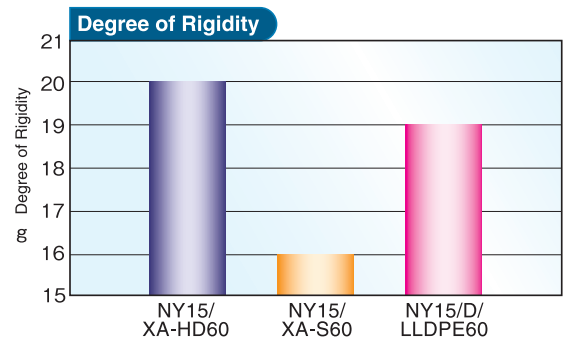

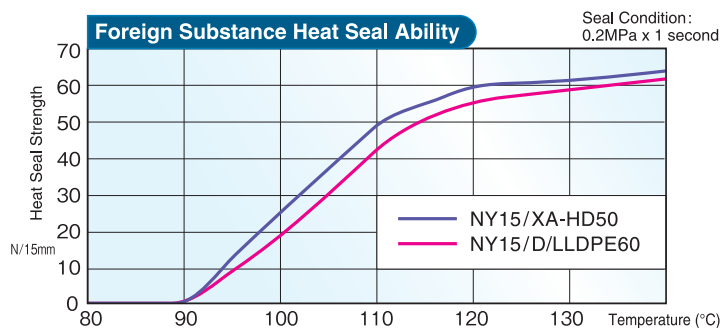

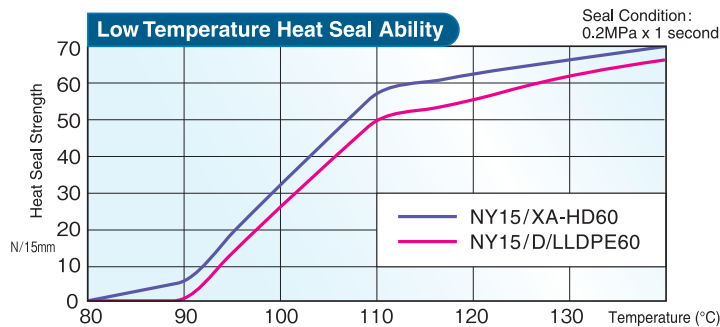

XA-HD

For ones who seek for Highest Quality in Large Volume Packing

Strong film rigidity is important for large volume pouches to enhance product value because it can protect the contents while showing the impression of food volume and easy handling. The XA-HD is a perfect film for large volume application meets the requirement because of its strong rigidity. The film also enables hot pack.

XA-HD Features

- (1) Stronger rigidity (degree of rigidity) than dry laminating film
- (2) Superior filling suitability than dry laminating film
- (3) Best match for large volume filling
- (4) Wide range of utilization from normal temperature to hot fill (90°C).
- (5) Ultra high-speed liquid automatic filling (large heat seal temperature range)
- (6) Similar poly lumps amount as dry laminate film yet increases roll pressure

※Due to the regulations in various countries, there may be situations where exporting will not be possible. For more details, please contact our sales representatives.
